

Join the Black Metropolis Research Consortium for our **Community Discussion**

Hear about the results of our Community Needs and Assets Assessment in which we asked Black communities in Chicago what they need to document and share their histories. We will also be talking about potential topics for workshops the BMRC will be hosting throughout the rest of 2021. These workshops will be free and open to the public. Join us in this community space for Black community members to talk about archiving and preserving our legacies.
